VIDEO 2C · GET YOUR FIRST CLIENTS

The layup offer.

Find businesses already paying for leads. Fix their leaky bucket.

2a · Voice agents 101

2b · Pick your offer

2c · Get your first clients

IN THIS PART

01 The sales process

02 Who to target

03 The leaky bucket pitch

04 A cold email and a DM

05 100 people a day

Leadlock.ai

THE WHOLE PROCESS

Four steps to a client.

01

Outreach

100 people a day: calls, email, DMs, LinkedIn

02

Demo that calls them

Their business name, ringing their phone

03

Close

Setup fee plus monthly

04

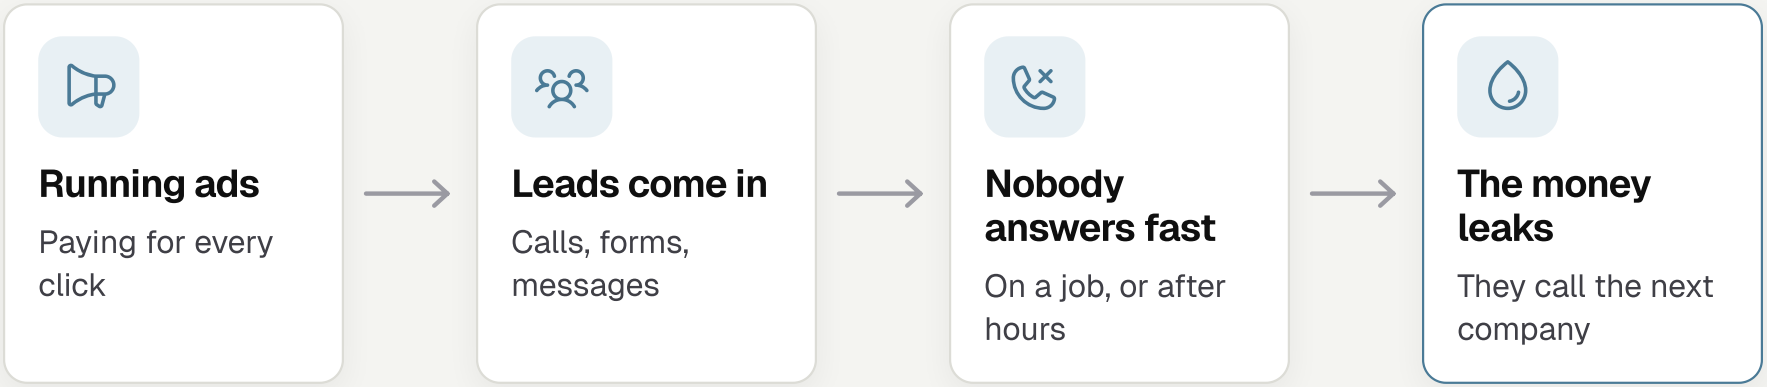

Onboard

Connect their GoHighLevel, test call, go live

Leadlock.ai

WHO TO TARGET

They already pay for leads.

You're not selling AI. You're plugging a leak they already pay for.

THE PITCH

Fix the leaky bucket.

THE LEAK	THE FIX
Missed calls	Answered 24/7, booked on the call
Slow replies to forms	Called right away
No follow-up	Followed up until they book

One line: **every ad lead answered and followed up.**

Leadlock.ai

FIND THEM

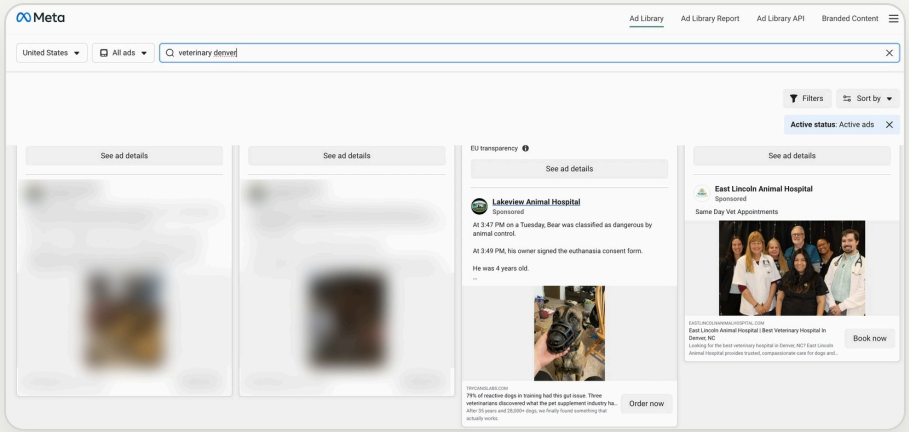

Open the Facebook Ad Library.

01 facebook.com/ads/library

02 Your country, All ads

03 Search a trade and a city: **plumber Denver**

04 Write down every local business running ads

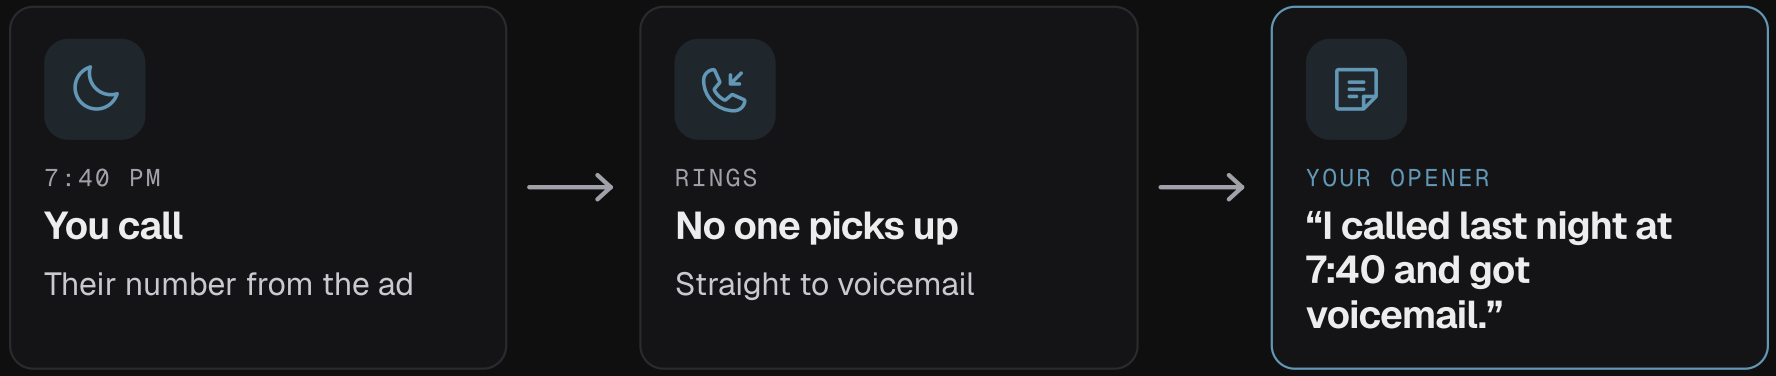

Leadlock.ai

GET PROOF

Call them after hours.

No answer is your proof.

Leadlock.ai

EXAMPLE: COLD EMAIL

Ask for a Loom, not a meeting.

SUBJECT: YOUR MISSED 7:40PM CALL

Hi {first name}, saw {business} is running ads on Facebook. I called last night at 7:40 and got voicemail.

I set up AI agents that answer every lead, put the job on your calendar, and follow up with hot leads until they book.

Mind if I send a 2-minute Loom of me calling it?

THEY REPLY YES

Send the Loom + a link to try it

The try-it link only goes out after they say yes.

WHY IT WORKS

A real moment, one line on what you do, a tiny ask.

Leadlock.ai

DMS

The DM framework: 8 steps.

01

Easy opener

A question they can answer fast

02

Are they a fit?

Owner, right trade

03

Say what you do

One line

04

Do they have the problem?

Either-or question

05

Dig in

Empathy, then one more question

06

Tease the fix

Logical, easy, fresh

07

Do they want help?

Make it their idea

08

Book it

Get their number first

Every step: acknowledge what they said. Never jump from step 1 to step 8.

EXAMPLE: DM

What it sounds like.

YOU · 1 Hey {first name}, saw your drain-cleaning ad. Quick one: do most jobs come in by phone or by form?

OWNER Mostly phone.

YOU · 3+4 Got it. I set up AI agents that answer calls for plumbers. When you're on a job, does someone pick up, or voicemail?

OWNER Voicemail. I call back at night.

YOU · 6+7 Makes sense. Most callers try the next plumber instead. Want to hear one answer and book a job?

OWNER Sure.

YOU · 8 Best number? I'll set up a demo that calls you.

Leadlock.ai

REACH THEM

Hit every channel.

Call

Owners often answer their own phone.

Email

The owner's address, not info@.

DM

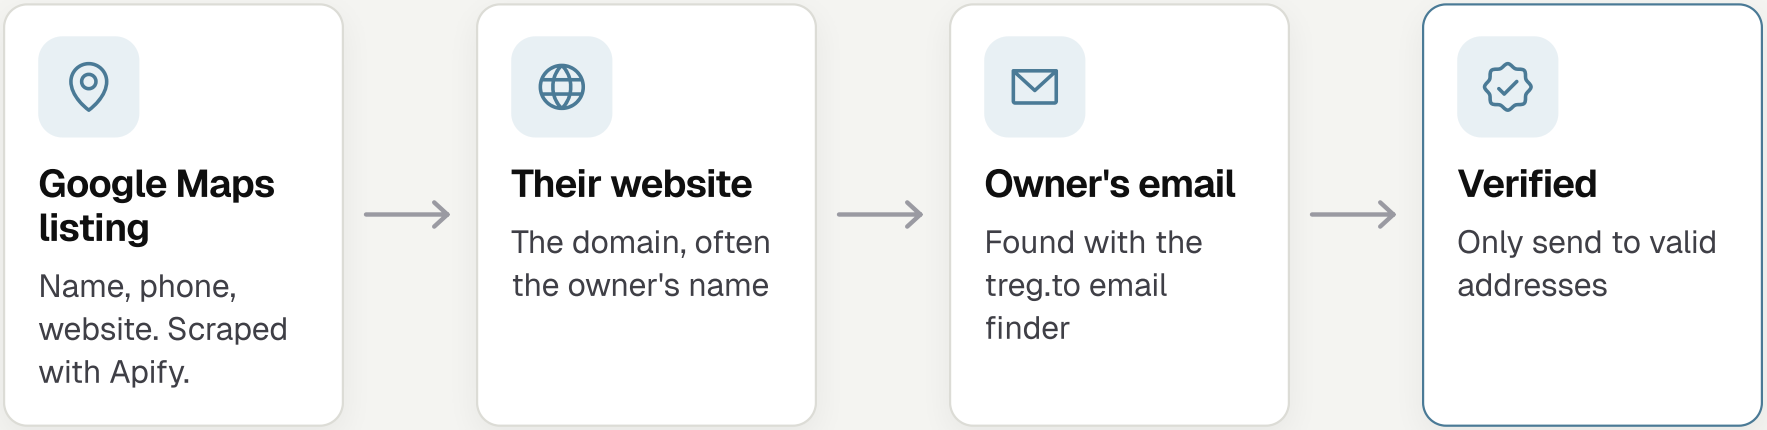

Facebook and Instagram, where the ad runs.

LinkedIn

Owners of the bigger shops.

EMAILS AND PHONE NUMBERS

Get the owner, not the front desk.

Full walkthrough in Video 3, plus Leadlock Lead Finder, which does it for you.

THE ONE RULE

100 people a day.

ONE WAY TO SPLIT IT

25 calls	25 emails	25 DMs	25 LinkedIn

Leadlock.ai

WHY 100

Volume teaches you faster.

Reps

The pitch gets good by saying it a hundred times.

Signal

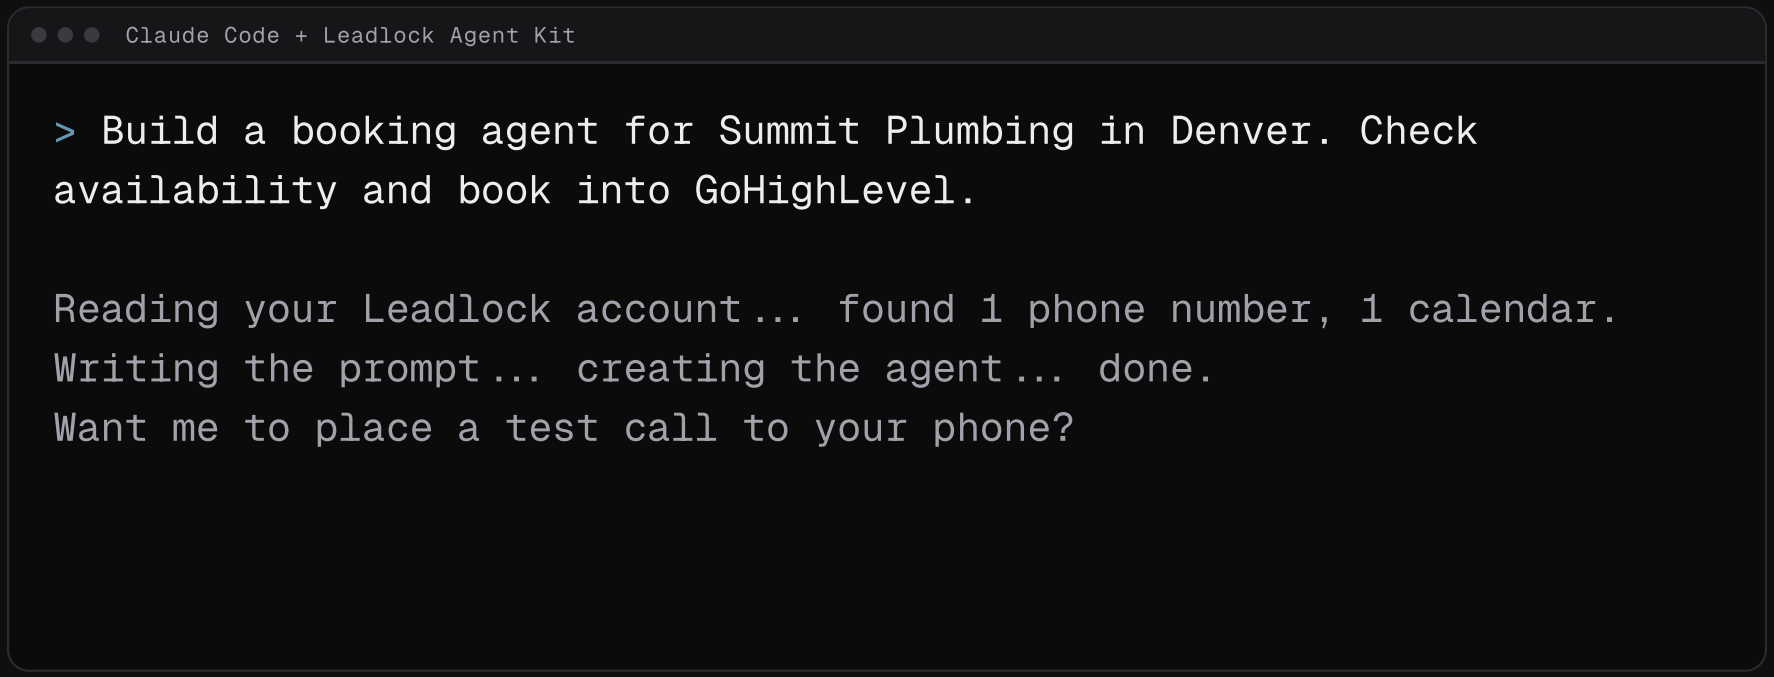

Replies tell you which offer and niche work.

The build is easy

Once you hit 100 a day, learn the building. Claude Code does the heavy lifting.

IMPLEMENTATION

The build is the easy part.

Illustrative run, typed on screen. Agent Kit: leadlock.ai/agent-kit. Video 4 walks it.

Leadlock.ai

YOUR DAY

The daily plan.

Morning	Build today's list (Video 3)
Midday	100 touches: calls, emails, DMs, LinkedIn
Evening	After-hours calls: find the leaks
Night	Learn the build (Videos 4 and 5)

UP NEXT

Build your lead list.

Video 3: Facebook Ad Library, Google Maps with Apify, owner emails, verification. And Leadlock Lead Finder, which does it all for you.

REMEMBER

01 Target businesses running ads

02 Fix the leaky bucket

03 100 people a day

Leadlock.ai
