MEET JIM BOB · REPAIRS

Fifty years of iron. No bad knees.

Doug Jim Bob McGee

Retired coal miner and operator

Slow-talking | Steady | Dry humor

HIS FIRST LINE This is Jim Bob in maintenance. Tell me what that machine's doing.

- Has run every machine
- One check at a time
- Only fixes from the guide
- Never jokes about safety

THE GUIDE · GRANITE PEAK - TROUBLESHOOTING

26 rows. One per machine and symptom.

machine	Excavator · CAT 390F / 374 / 336
symptom	Grinding or clunking when it swings
likely_cause	Low oil, worn bearing, loose bolts
what_to_check	Make it safe. Check oil and grease.
call_tech_when	Metal in the oil, or it gets worse

SAFETY FIRST · EVERY CALL

Safe first. Then the fix.

Make it safe

01 Parked on level ground

02 Bucket, blade or body down

03 Parking brake set, engine off

04 Locked out before anyone climbs on

Never a caller's job

Raised loads, tires, hydraulics

Someone hurt?

911 first

HOW IT WORKS, STEP BY STEP

Symptom. Guide. Check. Ticket.

01

Symptom

It's making a grinding sound when I swing.

Excavator · CAT 374
