SUPPORT TEAM · VIDEO 1

$15,000

The data behind it.

Six tables. One sentence builds them.

Built by asking Claude.

Leadlock.ai

WHAT'S IN THE DATA

Every desk runs on this data.

ON RENT TODAY

$140,400

A month. Five machines.

STARTING SOON

$66,000

A month. Two new rentals.

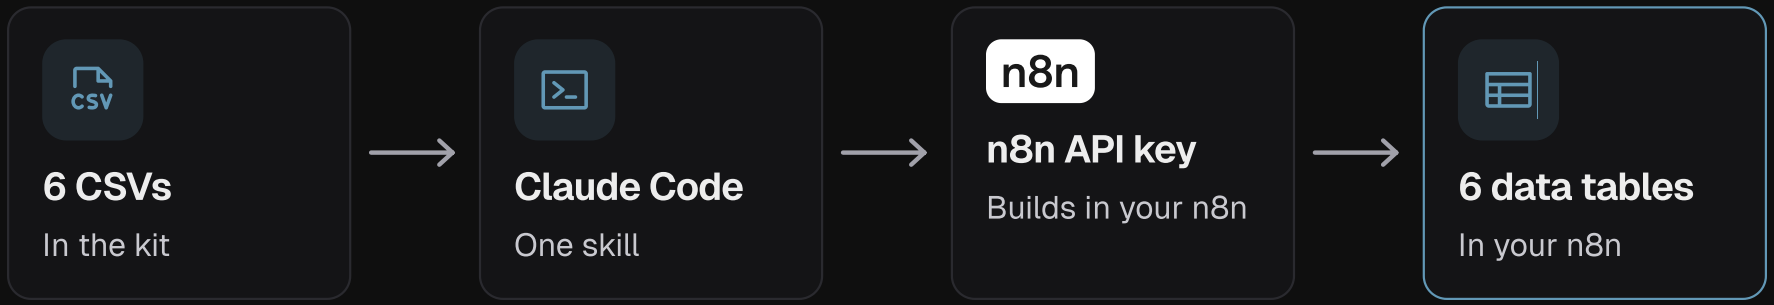

OPEN INVOICES

$46,000

Ready for billing.

WHAT WE'RE BUILDING

Kit files in. n8n tables out.

Every desk reads them, through n8n.

THE DATA · N8N DATA TABLES

Six tables. One source of truth.

Customers
Who's on file

Fleet
20 machines, 3 yards

Rentals
Who has what, and the bill

Empty for now

HOW THEY CONNECT

Everything hangs off customer_id.

TABLE	ROW	JOINS ON
Customers	You, Ridgeline Aggregates	`customer_id`
Rentals	777G haul truck, Elko	`customer_id, unit_id`
Fleet	GP-102, on rent	`unit_id`
Service	Payload readout high	`customer_id, unit_id`

WHO IS THIS?

Customers

The code only goes here

Everything follows the customer

THE SIXTH TABLE

One table starts empty.

Granite Peak - Verifications · one row per call

call_sid	the call this belongs to
customer_id	who it's for
code_hash	a scramble, never the code
expires_at	10 minutes out
attempts	tries used
verified	true or false

TODAY

Zero rows

The calls fill it

VIDEO 2

The gate reads it

Leadlock.ai

THE TEAM PLAN

Three desks and a person.

Short prompts, fewer tools

WRITE THE PLAN DOWN

A plan you'll use every video.

Say this · Claude Code, in the Agent Kit

```
> Write a one-page team plan for Granite Peak: which desk handles what,
  which tables each desk reads, and when a desk hands off to another desk
  or to a person. Save it to output/granite-peak-team-plan.md.
```

One page, plain English

Stays on your machine

In output/

Leadlock.ai

SAY THIS

Look first. Then build.

Say this · Claude Code, in the Agent Kit

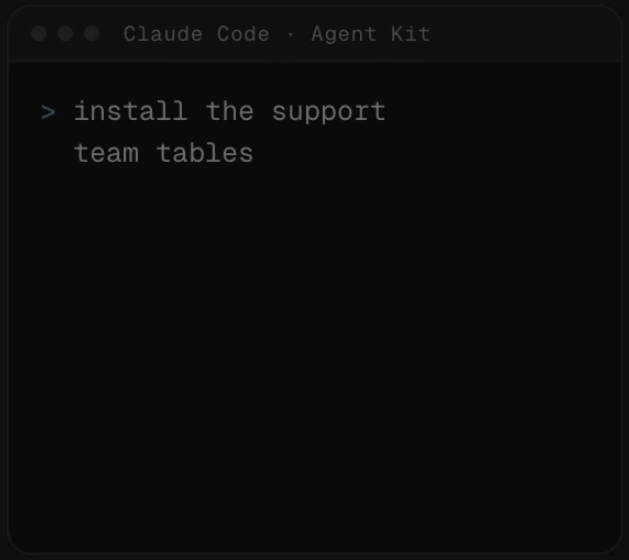

```
> Show me the Granite Peak CSVs in course/support-team/data: one line per
  file, what it holds and how many rows.
```

Say this · Claude Code, in the Agent Kit

```
> install the support team tables
  Your name and email? You go on file as customer C-1001.
  Plan: 6 tables starting with "Granite Peak - ". Go ahead?  yes
  Done: 6 customers, 20 units, 7 rentals, 4 tickets, 26 guide rows.
```

WATCH IT BUILD

Say it. Claude builds it.

Leadlock.ai

TEST IT

Ask the data a question.

Say this · Claude Code, in the Agent Kit

```
> Using the Granite Peak - Fleet table in n8n, which units are available
  in Elko today, and what's the daily rate for each?
```

SUCCESS

Elko units and daily rates

THEN LOOK

n8n, Data tables

GOTCHAS

Every fix is one sentence.

API key, or a 401

Say check my setup

Can't reach n8n

Type /mcp, then connect n8n

Table already there

Fine. It updates in place.

Row counts off

Run the install again

WHAT YOU BUILT

Step one of a $15K build. Done.

- **Six tables in n8n**
- **A plan for three desks**
- **The gate's table, ready**

YOUR MOVE

Build it now.
